

Abu Dhabi, 4 May, 2016

Penspen awarded Design Consultancy Services contract by ADNOC Distribution

Penspen, a leading global provider of engineering and management services to the energy industry, has signed an agreement with ADNOC Distribution to provide detailed engineering services for the modification and upgrade of various terminals and depot facilities in the United Arab Emirates. These include Al Ain Zakher Terminal, Mussafah Multi-Product Depot, Madinat Zayed (Beda Zayed) Depot, Dhow Harbor Depot and Saneyah Plot in Al Ain.

The Terminals and Depots within the scope of this project are ADNOC Distribution's main downstream facilities which store key fuel products (petroleum products and liquified petroleum gas).

ADNOC Distribution intends to upgrade and modify its existing terminals and depots to meet the increasing demand for fuel products within the UAE. The proposed works will also allow ADNOC Distribution to upgrade the safety and security of storing their fuel products and integrate their system with the latest fire-fighting technology.

Penspen's services will cover design and detailed engineering and the company will work together with other contractors to ensure successful completion of the entire project scope. This includes taking an active role in studies, reports, analysis, engineering, detailed design, system integration, documentation, calculations and engineering support.

Penspen's Executive Vice President Middle East Michael Simm, said: "Penspen has enjoyed working with ADNOC Distribution for many years now and we are proud to be given this opportunity to continue to support them. We are driven to deliver high quality engineering services, on schedule, whilst adhering to our client's strict safety and quality guidelines. We are delighted to be involved in this latest project, which will ultimately lead to a safer and more reliable delivery of fuel products for the UAE."

ENDS

Notes to editors:

About Penspen

Penspen has been providing engineering, project management, asset management and integrity services to the oil and gas industry worldwide for over 60 years. Originally founded in the UK in 1954 as Spencer & Partners, the company has now grown to include over 1,000 engineers with major offices in London, Aberdeen, Houston, Abu Dhabi, and Bangkok.

During its history, Penspen has undertaken over 10,000 projects, addressing a wide range of challenges from the economic evaluation of pipelines to complex integrated facilities design. Our heritage is onshore pipeline engineering, in which we have been involved in major pipeline projects around the world. However we have expanded to provide the full scope of engineering services for the life cycle of an asset. We have also developed an extensive range of training services covering engineering design, integrity, and operations and maintenance, for energy assets.

About ADNOC Distribution

Founded in 1973, as the first company owned by Abu Dhabi Government specialised in the marketing and distribution of petroleum products in the UAE, Abu Dhabi National Oil Company for Distribution (ADNOC Distribution) is a major driver of the country's economy and an important community player. It employs over 12,000 people of 50 different nationalities from all over the world. ADNOC Distribution is part of ADNOC Group – ranked among the top 10 energy companies worldwide.

The company offers its customers fuel and oil for land and sea transportation, as well as commercial products and services for an array of industries ranging from aviation and utilities to manufacturing and construction.

In the UAE, ADNOC Distribution owns a wide network of service stations, Oasis 365 stand-alone retail concepts, Autoserv car care centres, Salama vehicle inspection centres, multi-product depots and aviation fuel depots.

Throughout the GCC, the wider Middle East, Far East, Africa, and the CIS countries, ADNOC Distribution markets lubricants for passenger car and heavy duty diesel engine lubricants under the sub-brand ADNOC Voyager, as well as greases and lubricants for industrial, marine and other applications.

For fast access to the company's products and services, download the new ADNOC Distribution mobile app via mobileapp.adnocdistribution.ae, or visit our website - www.adnocdistribution.ae
